Fire Brick and Terra-Cotta Fire Proof Materials

FIRE BRICK, bearing our brand, "Henry Maurer, No. 1," are of the highest refractory quality. For requirements where less heat is to be resisted we recommend our "Royal" brand.

The scarcity and high cost now prevailing for common building brick is directing attention to our patent outside wall construction, the "Phoenix."

For fire proof floor construction our "Herculean" Arch has the endorsement of every architect who has used it.

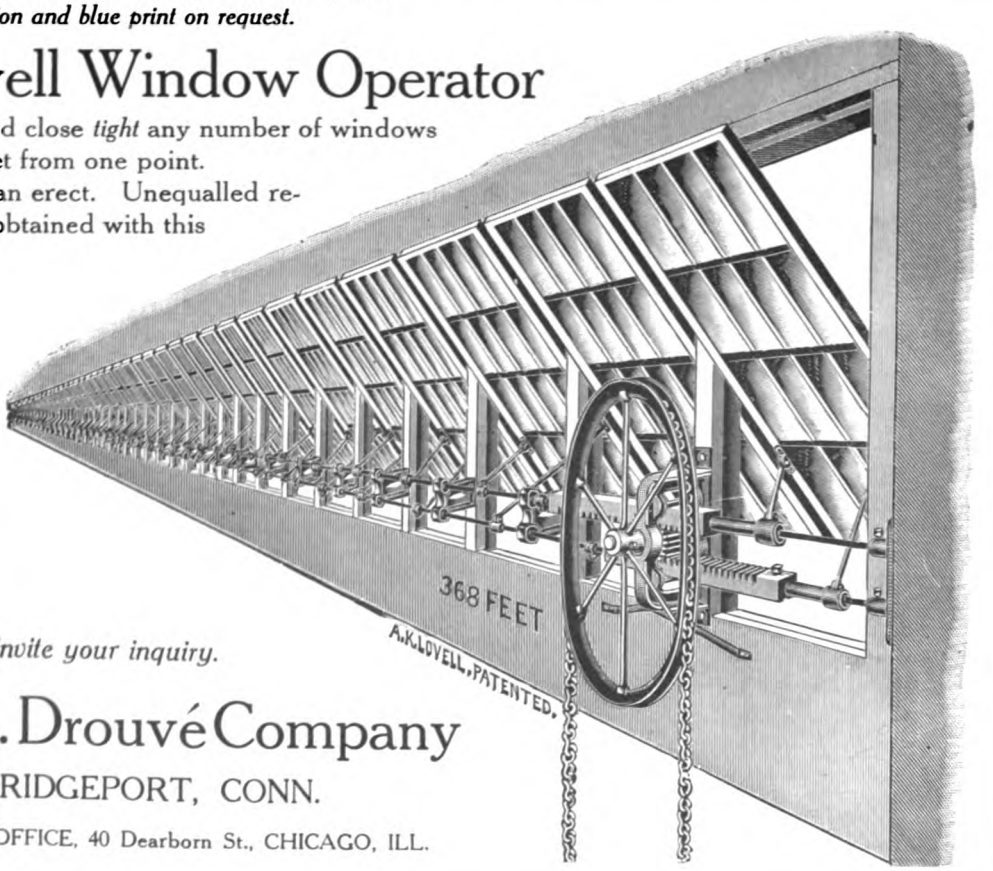
The "Anti-Pluvius" PUTTYLESS SKYLIGHT

Weathertight.

Can be sent anywhere and erected by anyone.

Built by units. Cow-hair felt rest for glass takes up contraction and expansion, reducing breakage of glass to a minimum.



The bridge feature is distinctive of the "Anti-Pluvius" design. Cleaning of skylights is facilitated without danger. Weight of man on the inverted U bar (Bridge) is carried by main channel without contact with or pressure on the glass.

Sample section and blue print on request.

The Lovell Window Operator

Will open and close *tight* any number of windows up to 500 feet from one point.

Any one can erect. Unequalled results can be obtained with this operator.

Hinged or pivoted sash. Vertical or horizontal arrangements.

The Engineering Magazine is made for the man who wants to grow in his business—whether he holds a subordinate position, is a practising engineer or a factory manager. **More Than 300 Pages Every Issue.**

Timely Articles (96 pages).

Specially written papers on all important engineering questions of the day, including Electrical, Civil, Mechanical and Mining Engineering, and Industrial Management in all its branches. Every leading article is written by a specialist,—by a man who has attained success and can write with authority on the subjects discussed.

Illustrations.

The illustrations aptly supplement the text, are freely used, and in securing them neither effort nor expense is spared. The illustrations are selected for their practical utility rather than for decorative effects.

Engineering Reviews (24 pages).

A concise survey of current industrial engineering progress, as reflected in the entire industrial press of the world.

The Engineering Index (32 pages).

A topical index to the whole range of current engineering and industrial literature, making it possible for one to keep abreast of progress in his specialty by this one publication alone. This index tells of every article on a given specialty published anywhere, and provides a ready means of obtaining it. Ask for descriptive circular.

Editorial Comment **New Books** **Industrial News**
Improved Machinery **New Trade Literature**

"THE COMPLETE COST-KEEPER" presents different original cost-keeping systems, varying in complexity from one so simple that the entire history of each production order is recorded on a single printed form, up to some of the most elaborate methods known, by which any desired degree of minuteness in subdivision of accounting can be obtained.

450 Pages. 6x9 Illustrated.
Cloth Binding. $5.00, Prepaid.

"THE FACTORY MANAGER" tells how to eliminate dead expense; unnecessary fixed charges; friction and delays in handling work; useless help, methods and records; unnecessary time and material; interruptions, "waits," and guesswork; too many handlings of work, etc., and how to arrive at the exact cost of all work done.

432 Pages. 6x9 Illustrated.
Cloth Binding. $5.00, Prepaid.

"PROFIT-MAKING MANAGEMENT." By CHARLES U. CARPENTER, Chief Executive, Herring-Hall-Marvin Safe Co.

This is a concise expression of the methods which Mr. Carpenter has developed and which he constantly uses in his own practice. They have been tried and perfected under the stress of daily operation in the course of his experience as supervisor, manager, head of the labor department, and President of various large manufacturing plants, notably the National Cash Register Company and the Herring-Hall-Marvin Safe Company.

Small octavo, 154 pp., including diagrams, Cloth, $2.00.

"DISTRIBUTION OF EXPENSE BURDEN." By A. HAMILTON CHURCH.

This book has taken rank as a standard reference work on one of the most difficult questions of cost finding. The simple but thorough analysis conducted in this volume, and the clear, common-sense demonstration presented will furnish a reliable guide to the solution of complex conditions in factory accounting.

12 mo., 116 pp., Cloth. $1.00.

FOREIGN TRADE

is the one great mainstay during times of depression at home, and a most valuable asset at all times. Panics and near panics have no terrors to firms that have developed their connections abroad. Enter these rich markets *now*, where trade awaits you. Become independent of local demand. Put your business on the soundest footing. You can not do this without export trade. *In times of peace prepare for war.*

CAN YOUR SALESMEN COVER THIS TERRITORY?

The BUYERS' INDEX

GETS OVER IT.

It will carry your announcement to

90,000 BIG BUYERS

the world over.

WE SIFT THEM FINER.

Our Foreign Trade Service

which is included with advertising service in the BUYERS' INDEX guides you in laying your lines right. It shows you the opportunities, tells you how to take advantage of them, and how to avoid the errors. It gives you the names and puts you in direct touch with the men in other countries who want your goods. It locates your agents—GOOD, LIVE ONES—and suggests the most advantageous division of territory in appointing foreign representation. OUR FOREIGN DEPARTMENT is conducted by men who have personally canvassed the markets—MEN WHO KNOW.

MANUFACTURERS' RECORD

THE MANUFACTURERS' RECORD for the past quarter century has been recognized as a dominant factor in Southern and Southwestern development, and as the leading and most influential, industrial and commercial journal of this section. It gives thorough, complete attention to the manufacturing, mining, railroad and financial interests of this section, and its readers comprise the alert, progressive business men in every line of endeavor.

NO one can keep fully informed of the development and activity of the South and Southwest unless he read the MANUFACTURERS' RECORD every week. No one can cover the South and Southwest completely except he advertise in it. The MANUFACTURERS' RECORD is getting bigger results for its advertisers than any other journal in the Southern and Southwestern field.

THE fact that a thousand leading firms, representing nearly every line of manufacture and business, are constant users of space is ample proof it is a paying advertising medium.

SEND for a sample copy (mailed free) and examine it with the advertising idea in mind; also, let us explain the valuable services rendered our advertisers.

Manufacturers' Record **Baltimore, Md.**

It has been demonstrated beyond doubt that Deming Triplex Power Pumps have no equal for their efficient and economical handling of any liquid that can be pumped.

Made for operation by any power, in mills, mines, factories, hotels, etc., they stand for all that is first-class in pumping equipment.

Our large Power Pump Catalogue gives full particulars and specifications.

Engineering-Contracting

is the only periodical in the world devoted to Methods and Cost. It tells how all classes of work are done so as to save money and make money and it gives itemized prices covering every detail of the construction. These are taken from the private records of men having charge of the work and are reliable and valuable.

Engineering-Contracting

is read regularly (and in nearly every case the files are kept for permanent binding) by more persons interested in engineering construction than read any other single periodical.

Builders (Contracting)

(See also Contractors, General)

NOTE—The difficulty in separating Builders from Journeymen, especially in small towns where a man is a builder for one operation and returns to the bench when it is completed; and the fact that they are not generally rated, makes this a most unsatisfactory list to compile. Thorough revision has been made from the best sources obtainable and the list is as correct as such a line can be, considering the wide field covered.
